

## Training and recruitment skills you can depend on!

A pro-active team committed to ongoing, real-life practical training – is one of the strongest strengths of Puglisevich (Petrell HSE Technologies).

Due to industry requirements and customer demands, the health & safety training programs at Puglisevich have expanded to include:

- Rigging Slinging and Banksman
- Detection & Control of Flammable Substances (Gas Detection) ENFORM Certified
- Scaffolding and Inspection
- Confined Space Entry
- Mechanical Hands Free Lifting
- Forklift and Aerial Lift (Operator Certification)
- Naturally Occurring Radioactive Materials (NORM)
- Dropped Objects Prevention Scheme (DROPS) (Puglisevich is the only DROPS provider in the region)

Established in 1978, Puglisevich has more than thirty years experience in providing professional staffing for a diverse range of clients. Based in St. John's, NL, the scope of their services is local, national and international. Some of the Clients that Puglisevich is currently hiring for include Transocean, Definitions, TAM International, Weatherford and Nalcor Energy - Lower Churchill Project.

The Puglisevich recruitment division can provide placement services for technical and trade jobs, as well as professional staffing for both onshore and offshore jobs. They recruit candidates for job opportunities in the oil and gas industry, marine crewing, and executive and business administration industries.

A labour force can be unpredictable.  
Puglisevich

The following are a few of our regularly scheduled training courses:

- H2S Alive (ENFORM)
- Fall Protection
- First Aid

To view our regularly scheduled training courses and learn more about each course, please visit [www.puglisevich.com](http://www.puglisevich.com)

can help in times of growth, during vacation season, or during illness.

Do you have open job opportunities and are in need of highly qualified personnel? The Puglisevich human resources team can guide you through the recruitment process to the perfect candidate.

Puglisevich Human Resource Specialists can create custom employee manuals that can help shape your organization and effectively communicate in-house policies and procedures. Custom employee manuals are available for any size organization and include Provincial Legislation as it pertains to Canadian Labour Standards. Employee manuals can address and meet your company's every need.

Your workforce must be able to react and adapt with the evolving needs of your organization. At Puglisevich, they understand – and deliver! They take pride in providing quality personnel. They are proud of their reputation for a high level of customer service and they confidently guarantee all hires for thirty days.
